All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040—P. & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919. in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. &. S. 44-25-2, dated 13th September 1926).

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. As per G. O. No. E. 1892-1902—P. & S. 12-23-13, dated 8th December 1923, and G. O. No. 5139-95—P. & S. 52-30-1, dated 12th November 1930, the English or the Kanarese portion of the *Mysore Gazette*, consisting only of the five Parts, *viz.*, I, II, III Section 1, III Section 3, IV and V taken together or an entire copy of the English or Kanarese Gazette containing all the parts will be supplied only to Patels, Nad-Patels, Shanbhogs and Sheikdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time or that he is on leave for a period not exceeding three years. Such subscribers will please note that the Gazette cannot be had *in separate parts* at concession rates under any other conditions and that they have to pay the full subscription for the part or parts required.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such money should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

FICE OF THE PUBLICITY OFFICER TO THE GOVERNMENT OF MYSORE, PUBLIC OFFICES, BANGALORE.

Dated 18th April 1949.

Press Note.

The Cinema Theatres in the State are bound by one of the ms of their licenses to exhibit an approved Mysore National them film at the close of each cinema show. It has come the notice of Government that when the National Anthem being played, the respect due to the same has unfortunately en not shown by some of the persons visiting the theatres. There will usually be a rush to the exits, to be out of the atre as early as possible. This behaviour would amount showing disrespect to the National Anthem, although there y not be the slightest intention on the part of the ctators to do so.

The Government, therefore, appeal to all the cinema-going public to remain standing as a mark of respect, and not to leave their places in the auditorium, while the Mysore National Anthem film is exhibited at the close of each show. It is all the more necessary, in the present state of Independence, that all of us behave in a disciplined manner and show the respect due to National symbols like the National Flag and the National Anthem.

Notification dated 19th April 1949.

Press Note.

Government have ordered that maize, imported into Mysore, may be sold at five seers per rupee uniformly all over the State, that is at the same rate as that fixed for millets.

PART VI

PUBLIC ADVERTISEMENTS

OFFICE OF THE PUBLICITY OFFICER TO THE GOVERNMENT OF MYSORE, PUBLIC OFFICES, BANGALORE.

Dated 20th April 1949.

Press Note.

1. A news report has it that in respect of "a plea made in the preliminary reply to the States Finance Enquiry Committee, the Mysore Government are now veering round to the view that integration of the revenue and resources alike is just and inevitable". The report proceeds on this unverified and unwarranted premise and refers to alleged discussions in the Cabinet in the matter. The report does not stop here, but professes to deal with the question of an outright merger of Mysore supposed to be favoured by a section of opinion. In the same way, hypothetical arguments and conclusions are freely indulged in about the Mysore State Railway, the Income-tax system and Railway Workshop. Disposal of Central Excises collected in Mysore and the question of control over Defence and Communications are similarly sought to be dealt with. More than all, it is stated that key posts in the Police will be filled by selection made by the Government of India. Having said all this, the report ends in a facile conclusion that Mysore will probably continue to enjoy full benefits as a result of integration. The present Ministry is also criticised that they are not definite about their plans on nation-building projects in Mysore and that the Central Government will hereafter supervise this branch of the Government's activity.

2. Government desire the public to understand that the foregoing report in every respect is entirely unfounded. It is surprising that the correspondent should have exhibited such irresponsibility in this respect. Most of the matters to which he refers above have nothing to do with the question of financial integration, the terms of which are well known. They would invite attention to their Press Note dated the 31st March 1949, a copy of which is attached hereto. Even to-day the position continues exactly to be what it was as given in the Press Note. The whole question of financial arrangements is still in the stage of negotiation and no final conclusion on any aspect has as yet been reached. The public are requested not to lend credence to such garbled or unfounded reports.

3. Attention is further invited to the recent statement of Sri Dandeker, Member of the States Finance Inquiry Committee, at Rajkot, when he said that "their recommendations would not put the States and the States Unions in a disadvantageous position or stifle their growth".

(P. N. No. 279—20-4-1949—XX. 7,801-XX. 7,900).

10949

Dated 31st March 1949.

Press Note.

News reports have appeared that Mysore has agreed under the "Accession Scheme" to make over to the Centre, Income-tax, Telephones, Akasha Vani and the State Railways, and that a revenue of about Rs. 3 crores out of Mysore State Revenues, will be transferred to the Centre by 1950 according to decisions of Sri V. T. Krishnamachari Committee. These reports are not correct. There is however a Committee—States Finance Enquiry Committee—presided over by Sri V. T. Krishnamachari, which is now sitting and is examining the question of integration of States and Unions of States in a Federal Financial structure. The whole question is still in the stage of examination and consultation. No decision has yet been taken. This is the correct position.

10949

Dated 21st April 1949

Press Note.

Consequent upon the failure, during the year, of millet c in the several parts of the State the acquisition of Ragi local Jola within the State has been poor. To make up deficit in millets, the Government of India have allotted t as much as 5,10,000 pallas of millets for the current year have intimated that this allotment will be supplied in shape of milo and maize. In view of the State's deficit millets, maize has been unavoidably accepted. Already 2 tons of maize have arrived and about 3,000 tons more under transit. With a view to see that the stocks of m are consumed quickly, maize is being issued against a por of the millet quota according to the following break up:

	Ragi	Maize	Milo or Jola (In Ounces)
'B' Class ...	2·2	2·0	1·8
Heavy Manual Labour ...	3·0	3·0	2·8
Plantation Labour ...	1·0	1·0	1·0

The public are requested to co-operate with Government help in the disposal of the imported maize to the advantage.

Dated 21st April 1949.

Press Note.

In the interests of public security, orders of detention orders restricting the movements, etc., of certain per considered anti-social have been issued from time to time u the Mysore Public Security Act, 1940. There have b requests for release on parole and for relaxation of restric orders form persons subjects to those orders. It was fo that there was no provision in the Act to comply with s requests. The provisions of the Mysore Prisons Act wh permit temporary releases of prisoners were found inapplic to persons detained under the Public Security Act. Governm considered that in deserving cases orders of release of dete on parole should be made and restrictive orders should also relaxed whenever necessary. Provision was also conside necessary to determine their conditions of detention, such maintenance, discipline, etc.

As the matter was urgent and could not be delayed till ensuing Budget Session of the Mysore Legislature, it considered desirable to pass an Emergency Act for the purp amending the Mysore Public Security Act. The amendme empower the Government to determine the conditions detention of detenus and to make orders for their tempor release, and in the case of persons subject to restrictive orde to suspend such orders for temporary periods. A regular B is also being placed before the Legislature to repeal and repl the Emergency Act.

PUBLIC ADVERTISEMENTS

OFFICE OF THE PUBLICITY OFFICER TO THE GOVERNMENT OF MYSORE, PUBLIC OFFICES, BANGALORE.

Dated 5th May 1949.

Press Note.

A conference, presided over by the Dewan of Mysore, was held at Carlton House, Bangalore, on the 4th May 1949 to discuss ways and means of developing technical education in the State. The Chief Minister, the Education Minister, the Vice-Chancellor and the Director of Public Instruction, the Director of Industries and Commerce, the Vice-Chairman, Mysore Iron and Steel Works, the Principals of the Engineering College and the Sri Krishnarajendra Technological Institute, the Superintendent, Occupational Institute, the Education Secretary, the Financial Secretary and the Development Secretary attended the meeting.

The Conference first considered the question of co-ordinating all efforts at promoting technical education and decided that as far as possible there should be no unnecessary duplication of effort, that is, duplication of instruction in various technical institutions, apart from a certain basic instruction which is inevitable in all such technical institutes. The Conference also emphasised the need for practical manual training in the various courses of study and the need for further applied training of students in industrial establishments before the Diploma is given. The Conference also examined how far a superior supervisory staff could be trained for work at one or more of these poly-technics. The Conference was of the opinion that a Board of Technical Education should be constituted to act in an advisory capacity. Its functions would generally be :—

(i) to review from time to time the courses of studies and practical instructions given in various technical institutes;
(ii) to suggest alterations or modifications in such instruction;
(iii) to propose courses of study and instruction in the new technical institutes that may be established;
(iv) to advise on the opening of new technical institutes at any centre in the State; and
(v) generally to advise on all matters connected with technical education through such institutes.

The appointment of a Director of Technical Education to supervise the working of the various institutes and to advise the Board and the Government on the co-ordination of the activities of these institutes was recommended by the Conference.

It was recognised that the need for giving technical or vocational education to women was urgent and the Conference was of the opinion that certain special subjects may be prescribed for women and suggested that the Vocational Institute for Women at Mysore may be reorganised so as to form a regular technical institute for women. It was also felt that special emphasis should be given in training women in industries which can be developed as cottage industries, with the minimum of disturbance to home life as such.

The need for establishing a proper school of arts and crafts for imparting instruction in fine arts was confirmed by the Conference. It was suggested that the Chamarajendra Technical Institute at Mysore may form the nucleus of such an institute. The Conference noted that it was under consideration to review the courses of study in middle and high schools with a view to giving an option to students to study agriculture and other allied occupational subjects and it was of the opinion that, when that scheme was finalised by Government, the views of the experts in technical education may be obtained in order to establish some kind of integration between the courses of study in such schools and those at technical institutes.

The Conference also recommended that when all the technical institutes are functioning, a Central Technical Examination Board will have to be formed. It also recommended that steps may be taken to get into consultation with private industries in the State and elsewhere which are in one form or another receiving Government patronage so that they may give practical training to students in the technical institutes at the appropriate stage.

Detailed examination and further scrutiny of all the recommendations will be made by experts and sub-committees.

A committee consisting of Sri J. B. Mallaradhya (Convener), Sri D. S. Venkanna, Sri J. P. Dass and Sri B. T. Kempanna was formed to work out the details of these proposals and report to the Government pointing out the financial implications of the same.

Dated 6th May 1949.

Press Note.

It has been urged by the Central Food Council that, in accordance with the practice obtaining elsewhere in India, surplus holders may be given the option to surrender the surplus in rice instead of paddy, thereby giving an opportunity to the holders to have their paddy hulled by themselves in any mill they like and retain for their benefit the bran and broken rice.

Government have accepted the proposal and have accordingly ordered that holders might be given the option to surrender rice instead of paddy and that rice may be paid for at the following rates :—

PER PALLA OF 100 SEERS.

Rice I Variety	Rs. 41.
Rice II Variety	Rs. 39.

OFFICE OF THE PUBLICITY OFFICER TO THE GOVERNMENT OF MYSORE, BANGALORE.

Dated 7th May 1949

Press Note.

There are some misapprehensions in certain quarters that the petrol coupons are not freely issued. In this connection, it is necessary to understand that the petrol quota is not commensurate with the increase in the number of vehicles for the last two years. It has become, therefore, inevitable that the strictest economy should be exercised in the matter of consumption of petrol and to restrict its expenditure to essential needs.

Government have issued instructions to all the District Magistrates and the Area Rationing Authorities to issue petrol to the Stage Carriages running in the Maidan parts for 15 days in the month, to those running in the Malnad parts for 18 days in the month, and to Stage Carriages carrying Mails for 25 days in the month.

In view of the repeated representations made by the permitholders who are granted permits on the specific conditions that they must run their services on gas plant, Government have, as a special case, allowed petrol for 10 days in the month of May and 10 days in the month of June 1949 subject to the definite condition that these new services should run on gas plant from 1st July 1949.

Unlike other places, Government Industrial Concerns, Public Works Department, Electrical Department, Forest Department and Food Department in the State are in need of petrol to push through their schemes.

The public are therefore requested to co-operate with the Government and minimise the consumption of petrol in order to provide petrol for essential purposes.

Press Note.

STEEL ALLOTMENT TO THE STATE AND DISTRIBUTION TO THE PUBLIC.

Due to acute shortage of steel in the country compared with the demand, the allotment of steel to different Provinces and States by the Government of India, is made on a population basis since the last nearly one year. The allotment thus received for the Mysore State is very meagre, being cut down to nearly one-tenth of the previous allotment, while demand has been continuously on the increase and applications for permits have been multiplying.

As a result, a large number of applications is pending for more than 2,000 tons of material, which it would take nearly a year to liquidate, and the Iron and Steel Controller is being put to the painful necessity of making drastic cuts until the position improves.

Efforts are being made to get an increased quota to the State for the use of the general public and small-scale manu-

turers of consumer goods, and the Government of India ve been pleased to promise all sympathetic consideration. is hoped that the position may improve shortly.

In the interval, the disappointment caused to applicants is gretled.

The position regarding Galvanised sheets and G. I. Pipes is o similar.

As equitable a distribution as possible is being made of the nited allotments that are received, essential and urgent eeds being given priority. A committee consisting of representatives of the public appointed by the Government to view the situation from time to time to ensure satisfactory stribution is actively helping in the matter.

The co-operation of the public is requested to tide over the itical situation.

PUBLIC ADVERTISEMENTS

OFFICE OF THE PUBLICITY OFFICER TO THE GOVERNMENT OF MYSORE, PUBLIC OFFICES, BANGALORE.

Press Note.

Dated 24th May 1949.

In their Press Note dated 29th April 1949, Government announced their intention to bring the Civil Station under the Mysore Educational System from the year 1949-50 and to afford certain educational concessions to the students of that area. While the general policy as announced still remains, attention of Government has been invited to the clarification of some specific points. In respect of the levy or otherwise of fees in Primary and Middle Schools, it is noticed that the position has not so far been uniform in all the Schools. The managements of several private institutions have represented that a sudden change in this behalf will considerably up set the working of their Institutions. Having considered all aspects of the matter bearing on this topic, Government wish to proceed on the following lines:—

(1) Regarding the Lower Elementary Schools (corresponding generally to the Primary Schools in the State) managed by the Municipal Commission, there are 35 of them in independent status (which are not attached either to a Higher Elementary School or to a High School). These will be taken over by the Government and run free, subject to the levy of the Education Cess by the Municipal Commission.

(2) There will however be five other Lower Elementary Schools attached to the Municipal High School and the Municipal Higher Elementary Schools. As they are not independent Institutions, the question of their control will be settled in consultation with the Municipal Commission. If the Municipal Commission agrees to retain them, Government will pay grants as in the case of other aided Institutions in the State.

(3) With reference to the Higher Elementary Schools (corresponding generally to the Middle Schools in the State) maintained by the Municipal Commission as well as the Lower Elementary, Higher Elementary, and Middle Schools run by private bodies and individuals, the *status quo* will continue. The management will be given the option either to continue the levy of fees and receive grants under the provisions of the Grant-in-aid Code the Civil Station or to discontinue the levy of fees but to recive grants under the provisions of the Grant-in-aid Code in force in the State.

(4) The High Schools run by the Municipal Commission and otherwise will continue for the present on the same terms and conditions as in previous years.

Press Note.

SAFE USE OF ELECTRICITY.

Just as the monsoon finds the weak spots in a building, so also it discovers the unsuspected weaknesses in an electrical installation.

The risk of electric shock in the home only arises from some fault which has occurred, either in the wiring installation or in the appliance in use.

This risk arises when any metal case or covering of an electric fitting or appliance comes in contact with a conductor owing to breakdown of the insulation which is provided to protect the parts that carry the current or when the covering of the electric wiring has so deteriorated in use that it no longer serves the purpose for which it was provided, *viz.*, to insulate the current-carrying conductors. Dampness, by assisting the flow of current, increases these risks, so that extra precautions should be taken wherever moisture comes into contact with electricity.

An electric installation, which may appear to be safe during the dry season, may develop leakage and danger of shocks as soon as monsoon conditions begin. Therefore—

"have your installation tested by a licensed electrical contractor at least once a year, at the beginning of the monsoon, to ensure that it is good condition, in the interests of the safety of persons and property."

LABOUR INFORMATION SERVICE.

The Employment Exchange (No. 3, Lady Curzon Road, Civil Station, Bangalore) finds employment to the jobless. It does not create jobs but assists the employment seekers on the one hand and the employers on the other in meeting their requirements. Much of the success of this organisation, which renders free service, depends on the co-operation of the employers.

Sixteen thousand two hundred and seventy-six employment seekers were registered at the exchange from the commencement up to the end of April 1949, of whom 7,509 persons were submitted and 1,721 persons were placed. There are still 3,160 ex-service personnel and 8,904 others on the live register.

For the month of April, there were 1,145 employme seekers who were registered, of whom 25 were women, 1 ex-servicemen and 982 others.

One hundred and ninety-five vacancies were reported fro employers, of which 186 were from Government and 9 fro private parties.

The number of persons directed for employment was 1 ex-service personnel and 234 others. The total number placings during the month was 90, of which 19 represented e servicemen and 73 others.

The number of applications received under the Lan Colonization Scheme was 41.

Organised originally for the specific purpose of resettlin ex-service personnel and war workers in civil life, the Emplo ment Exchange has now an extended scope and it can made to serve the national interest if only its potentialities the Man Power Bank are realised by all concerned. With t support of the employment-seekers, it can show a bett record of placements and thus help to solve the problem "UNEMPLOYMENT."

Press Note.

KHADI WORK IN MYSORE STATE.

References have recently appeared in the local newspapers making adverse comments on Khadi work being carried on in the State generally, with particular reference to work under the Badanval Spinning Circle Scheme, making it appear as though the progress has been arrested after the popular Government came to power. It is necessary to dispel some of the wrong impressions that may have been created in the minds of the general public.

Khadi work has been carried on under the Badanval Spinning Circle Scheme purely on an official departmental basis from a long time past. What the Government felt was that though it was started by Government, still its progress has not been satisfactory for some years and not that it became unsatisfactory after the popular Government took up office, which is what some want to make out. Since this Government is of the view that the activities can be intensified and expanded with the help and co-operation of non-official workers, an invitation was sent in May 1948 to Sri Krishna Das Gandhi, Secretary, All-India Spinners' Associa tion, Wardha (Sevagram), to visit the State, meet the worker and Departmental Officers interested in Khadi and offe suggestions. Practically, all leading workers of the State tool part in the meetings and the Government on its part under took to give every support for the development of Khad work on approved lines.

The Charaka Prachara Sangha of Mysore State has sinc framed schemes for starting a Khadi Vidyalaya for trainin workers and a Khadi Workshop for the manufacture o spinning wheels and other equipments. Government hav agreed to finance these schemes and give Rs. 7,500 an Rs. 12,000, respectively, for the two projects. Governmen hope that with the expected turnover of trained workers unde the above schemes, it will be possible to establish a net-worl of Khadi Centres all over the State on a sound basis.

As a further measure to enlist the co-operation of non-officia agencies, the Government Spinning Centres in Chitaldru District have all been handed over to the local District Boar with very satisfactory results and adoption of a similar polic in Bangalore District is under active consideration.

In the meanwhile, as part of the drive for increase activities under the Badanval Spinning Circle Scheme Government have appointed a Committee consisting of (1 the Additional Director of Industries, (2) the Presiden District Board, Mysore and (3) the Secretary, Charak Prachara Sangha, to study its working and make suggestion for expansion and improvement.

Government wish to assure the public that Khadi work i being given top priority among schemes to afford a source c subsidiary income to the masses and will continue to receiv special encouragement and assistance at their hands. The are, however, particular, that the experience of department working in other parts of India should be utilised fully i avoiding defects noticed in the working of Khadi Expansio Schemes and no efforts will be spared to spread the messag of Khadi in all possible places subject, however, to thi precaution of seeing that the money and efforts are n expended in vain.
